

## UPPER PENINSULA

**School Innovation Is Introduced.**  
Superintendent Willman of the Gladstone public schools has fitted up a room in the high school building to allow the showing of stereoscopic views relating to the different subjects being studied by the pupils. The arrangements are such that the room can be darkened in a few minutes. The views include study work in science, history, literature and geography. Not many schools in the state are similarly equipped. The work of instructive classes in different subjects can be done more effectively by means of views than by text book descriptions.

## Boy Killed by Railroad Train.

Raymond Klauer, the two-year-old son of Joseph Klauer of Birch Creek, was struck and instantly killed near his home by a Chicago & Northwestern passenger train, No. 214. Raymond, accompanied by his twin brother Robert, had been to his father's school, directly across the railroad track, on starting for home the children waited at the crossing for the approaching train to pass but Raymond was standing too close to the track and as the train passed he was hit by the extended side of the cow-catcher and hurled a short distance against a rock, which caved in his skull. Stanley Klauer, a farmer, was standing within a few feet of the children and as he saw the danger of the boys he rushed up to draw them back, but he was too late, the train hitting Raymond Klauer as he was almost within grasp of Klauer. The engineer of the train did not see the boys until the train was upon them. Klauer, the father of the boy, moved to Birch Creek last May from Menominee.

## Shot by Hold-up Man.

Thursday night shortly before 8 o'clock, Albert Demers, a young insurance agent from Iron Mountain was shot in the shoulder while walking near the Hamilton shaft. He claims that a masked man held him up, and when he started to grapple with the highwayman, the latter fired one shot and ran. Demers walked into the engine room at the shaft and called up a friend at the Empire Hotel, telling him to come to the St. George Hospital. Then he called up the hospital and Dr. Cruise went down in his auto and brought Demers to the hospital, where the injury was dressed. The bullet entered the left shoulder, and flattened against the bone. The injury is not serious. Demers claims that he did not recognize the man, and could not describe him on account of the darkness. He declared that the man wore a mask over his face, and only spoke once, ordering him to throw up his hands. The police were on the spot of the shooting within five minutes after it happened but up to the time of writing have made no arrests.

Demers is an agent for the Metropolitan Insurance Company and also a

## Honest Boy Found Money.

It was unfortunate for Mrs. Treux of Bradford, Pa., that she lost two \$10 bills when walking from the merchandise dock to Winkelman's store at St. Ignace. It was fortunate for her that the finder of the lost treasure had been brought up in the belief that honesty is the best policy and as soon as the bills came into his possession began looking about for the owner. Mrs. Treux had been visiting relatives in Hessel and was on her way to her home in Pennsylvania. She did not notice her loss until she went to make payment for some purchases at Winkelman's. She remembered she had the money a short time before entering the store and as it was after dark she procured a lantern and with the aid of friends made a thorough search for the bills, but without avail and she retired broken-hearted over her loss, as the money represented the fare for herself home. Early the next morning Everett Nichols, an employee of the Enterprise, was going to his work when his attention was attracted to a letter inside the railroad park west of the Leclerc Hotel. He stopped to investigate and as he did so he saw the two bills in the grass about a foot from the letter, and it wasn't long thereafter before the money was in the possession of its rightful owner. Mrs. Treux offered a substantial reward to the finder, which was refused. Her reward being the joy he felt in being able to restore to the woman peace of mind and her fare to her own fire-side in the East.

## SPLENDID PROGRAM FOR MISSIONARY GATHERING

NOV. 12 AND 13 DATES OF BIG MEETING AT CALUMET M. E. CHURCH.

Arrangements have been completed for the first meeting in the present season of the Woman's Foreign Missionary association of the Houghton district of the Methodist Episcopal church, to be held in the Calumet M. E. church on Tuesday and Wednesday, Nov. 12 and 13. The musical program, in connection with the conference will be in charge of Mrs. Harry Northy and entertainment will be provided for the delegates from outside points. Following is the excellent program prepared:

**Tuesday Afternoon.**  
Mrs. William Tonkin, presiding.  
2:30—Song service.  
2:45—Holy Communion. Rev. W. E. Marvin, Dist. Supt.  
3:30—Why a District Organization? Mrs. E. A. Thomson, Detroit.  
4:00—Solo, Mrs. C. D. Thomas, Calumet.  
4:10—Missionary Experience, Miss Bertha Creek, India.  
4:30—District Drill, Miss Anna Champion, Calumet.  
Appointment of committees.

**Tuesday Evening.**  
Mrs. F. C. Carpenter, presiding.  
7:30—Devotions, Rev. H. H. Mallinson, Lake Linden.  
Address of Welcome—Mrs. William Tonkin, Calumet.  
Response—Mrs. J. A. Doelle, Houghton.  
Anthem—Choir, First Church, Calumet.  
Address—Miss Bertha Creek, India.  
Hymn 631, "Jesus Shall Reign."  
**Wednesday Morning.**  
9:30—Devotions, Mrs. Mary Gordon, Detroit.

9:45—Reading of minutes.  
10:00—Reports of Auxiliaries: Calumet, Crystal Falls, Hancock, Houghton, Ishpeming, Lake Linden, Republic, Gladstone, Escanaba.  
10:30—Report of Standard Bearers, Mrs. E. T. Abram, Dollar Bay, Calumet; Centennial, Dollar Bay and Iron Mountain.  
Children's Work—Mrs. Fred Derrick, Lake Linden.  
11:00—District Drill—Mrs. E. D. Grant, Houghton.  
11:15—Election of Officers.  
Noon-tide prayer.

**Wednesday Afternoon.**  
1:30—Song service.  
1:45—Devotions, Rev. Reuben Crosby, Hancock.  
2:00—Installation of officers.  
2:15—Solo, Miss Myrtle Gray, Laulium.  
2:30—Methods in Auxiliary Work. Discussion led by Mrs. Emma Canfield, Ishpeming.  
3:00—Question box, Mrs. E. A. Thomson, Detroit.  
3:15—Offering.  
Report of committees.  
Reading of minutes.  
4:00—Children's hour.  
Adjournment.

## TORCH LAKE

## LAKE LINDEN CARPENTER PATENTS BED APPARATUS

GEORGE FILLION, SR., GETS PATENT ON COMBINED BED ELEVATING AND TRANSPORTING DEVICE.

George Fillion, Sr., one of the best known residents of Lake Linden and a carpenter by trade, has been advised that he has been successful in obtaining a patent on a bed device. The application for patent was filed March 26, 1912, and the patent was informed October 26 that he had obtained a patent. Mr. Fillion spent months in perfecting the apparatus. For years he contemplated constructing something in the line of this patent, a brief outline of which follows:

It is a combined bed transporting and elevating apparatus, in combination with a truck including a threaded post. Along this post is a sleeve slidably mounted, with opposed arms extending laterally from the sleeve means for connecting the arms to the head of a bed, a nut engageable with the post below the sleeve for adjusting the position of the sleeve along the post, and a truck for supporting the foot of a bed.

The idea of the invention is mainly for the convenience of patients in hospitals. The majority of beds found in institutions of this kind are of the ordinary kind with no devices attached whereby the patient occupying the bed may be changed from a position flat on the back to a more elevated position. With the movable portions of Mr. Fillion's device, the patient may have a serious operation, and instead of being compelled to remain in the same position at all times, the threaded arm at the head of the bed can be operated on a screw post which will put the bed in an entirely different angle, thereby giving the patient more rest. When the head of the bed is raised to an elevated or inclined position the foot posts are raised from the floor and the device rests on the floor instead. The head and foot of the bed are connected with a light truck apparatus which makes it convenient to move the entire bed from one portion of a room to the other without any inconvenience to the person occupying it. The local physicians claim the device is a very good one and it is to be given a trial in copper country hospitals.

## TESTS IN ADDITION.

Pupils of Lake Linden—Hubbell Schools Tried for Speed.  
The pupils of the Lake Linden and Hubbell schools have started contests for accuracy and rapidity in addition. Some of the grades have pupils who are both rapid and accurate, but there is also a large number who are slower and not so accurate, this lowering the percentage of the grade to an unsatisfactory point. These contests are to be conducted the last day of each month and the same set of ten numbers will be used throughout the grades. The averages of the grades for the month of September follow:

Hubbell 8th, 64; Lake Linden 8th, 62.5; Hubbell 7th, 51.5; Lake Linden 7th, 62; Hubbell 5th, 62.5; Lake Linden 5th, 65; Hubbell 4th, 42; Lake Linden 4th, 42.  
An attempt is also being made to determine which pupil in the grade is most rapid in adding. So far as these tests have been made the following students have won: Lake Linden 8th, Harold Kettenbell; Lake 7th, Annabelle Jones; Lake 6th, Howard Williams; Lake 5th, Bertha Bouchard; Lake 4th, Adeline Dunlop; Lake 3rd, Donald Williams; Hubbell 8th, Lottie Krug and Hubbell 5th, Dorothy James.

These contests are to be continued in the future and reports will be made on future tests.

## TORCH LAKE BREVITIES.

Services will be held as usual in the Torch Lake churches tomorrow. Rev. H. H. Mallinson will preach in the Methodist church both morning and evening. At the Lake Congregational Rev. Fredie Bagnall will preach in the morning. Services in the Hubbell church will be held by Rev. Bagnall at 6:30 in the evening.

The local rooms of the Torch Lake Social & Athletic association have received a very liberal patronage during the past month.

The Lake Linden theater will have the doors thrown open Monday evening for the purpose of seeing the Lyman H. Howe motion pictures.

Miss Agnes Mitchell of Calumet, reader and entertainer, entertained a large audience in the high school assembly room last evening.

## COLLAPSIBLE UMBRELLA

Photo, Copyright, by Underwood & Underwood, N. Y.

In Paris no walking costume is complete without the "Stick." One has just been invented that is convertible into a parasol. One would not dream that the stick could conceal such a large sunshade.

(On the left shows the sunshade as a cane, and on the right, used as an umbrella.)

## OF GOLD OR SILVER BROCADE DIRECTOIRE COAT IS HERE

Pretty Fad for the Dancing Slippers Bids Fair to Keep Its Popularity.

The fad introduced this passing summer, and likely to be continued for the autumn, of having the dancing slippers made of gold or silver brocade, has displaced the fashion of the plain gold or silver cloth ones in a measure. Bright startling colors, such as scarlet, turquoise blue or emerald green, are interwoven with the metal in the brocade, and the effect on the dancing foot is altogether charming. A novelty in black satin slippers has them edged with diamond galeon, and sometimes even the heels are encrusted with the rhinestones. The five strapped black and white shoe, with a rhinestone medallion on each strap, is most attractive with white or flesh tinted hosiery for afternoon wear, but the single large square buckles of those sparkling brilliants are often preferred. The Parisian fashion of having the shoe upper made of silk to match the costume has not been introduced here yet to any appreciable extent, but it is bound to come, for shot taffetas makes an unusually dashing finish for smart and dressy ties. The magpie ties, which combine black patent kid vamps with white uppers, are most appropriate with the smart all white chameuse and broad cloth costumes, the black and white reappearance also in the chapeau.

**The New Blouses.**  
Some new blouses have directoire collars. One of white sponge has deep cuffs of pique with an under cuff of net and shadowy lace, and a long black silk tie; its price is \$10.75. Another with directoire collar and white pique cuffs, but the waist made of crepe de chine, is \$12.75. This one is finished with a Gainsborough jabot of shadow lace and trimmed with loops of blue silk and clusters of tucks.

**Use Barrel as Collection Plate.**  
Waukegan, Ill.—Instead of a collection plate, a barrel was used for contributions at the Zion City tabernacle. Deacons announced that it contained \$7,500.  
Closed cars are reported growing in popularity.

**His Winning Delivery.**  
"And how is your excellent son, the divinity student? He graduated from the theological seminary, about a year ago, I believe?"  
"Yes, just a year ago. And he's doing so well! They pay him a wonderful large salary, and next year he's to get more."  
"Indeed? That's very unusual. Perhaps it is his excellent delivery that sets him this large emolument?"  
"Yes, that's it. He's one of the pitchers in the big league."

## ROYAL BAKING POWDER

Adds Healthful Qualities to the Food

Prof. Prescott, of the University of Michigan, explains why Royal Baking Powder adds healthful qualities to the food.

Testifying before the Pure Food Committee of Congress, the Professor stated that fruit acids were excellent articles of food and that of these cream of tartar, the acid of grapes, held rank with the highest both in itself and its effect in the process of leavening and baking. He regarded the results from cream of tartar baking powder as favorable to health. Scientists and hygienists are in accord with this opinion.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar.

## PROPER CARE OF THE FEET

Time Spent in Bathing, the Use of Lotions and Kind Attention Well Repaid.

Women who spend hours caring for their hands pay little attention to their feet. They are such hard worked members of the body that they deserve better treatment.

Feet are best kept in condition by shoes that fit. Never economize shoe leather and do not yield to vanity and get footgear that is too small.

Frequent bathing keeps the feet from being tired and swollen, and it prevents roughness of the skin that leads to callous spots.

Water, in which a bit of washing soda has been dissolved, is restful. Hot salt water is equally refreshing, while a vigorous rubbing with alcohol will quickly relieve a burning sensation.

Pumice stone, used frequently, keeps the skin smooth. It is especially necessary upon the heel and on the

ball of the foot, where the weight of the body rests in walking.

Never cut the nails too short, as they are more likely to become ingrown. And file them smooth with sandpaper, so they will not catch and pull the threads of your stockings.

Occasionally visit a chiropodist. He will detect any irregularity in the growth of nails, and money and pain are saved.

And remember that one's disposition is quickly affected by painful feet.

**Quick Decision.**  
"Huh!" snarled the railroad editor. "Here's a story that in one place calls a man Bridge and in another place refers to him as Bridge. What do you think of that?" "Merely a question of you or I," remarked the statehouse man, flippantly. And the railroad editor, who was inclined to egotism, decided in favor of "Bridge."

Only 36 per cent of Alabama's 3,224 automobile chauffeurs are white.
